Richard

BEDS

2017

Antonio Citterio

Description

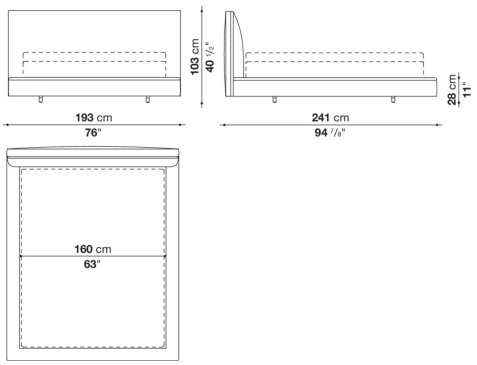

The Richard bed is available in different sizes, upholstered either in fabric or in leather. The design is defined by high sides running along the perimeter and by the sartorial detail of the seams with the insertion of a prominent profile. The height of the lateral bed sides makes it possible to use any type of mattress support, from traditional fixed ones to those with a manual headboard and footboard mechanism.

Technical information

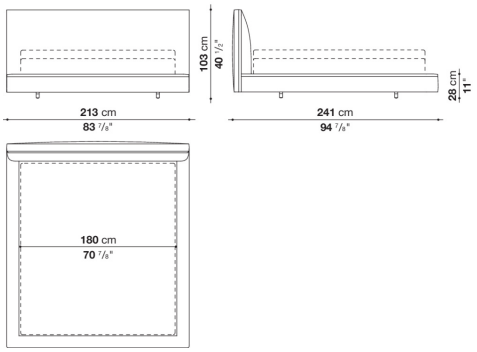

Internal frame
tubular steel and steel profiles
Internal frame upholstery
Bayfit® flexible cold shaped polyurethane foam, polyester fibre
Feet
tubular steel and steel profiles
Ferrules
thermoplastic material
Cover
fabric or leather (plastic material profiles)
