

Trust Screen — Lievore - Altherr - Park — 2018

TRUST è un sistema di design e al tempo stesso un sistema di valori. La collezione comprende scrivanie, pareti autoportanti e contenitori per l'archiviazione. Superfici, contorni, architetture concorrono a creare una scenografia di serenità e fiducia. A configurare uno spazio duttile e aperto, dove il dialogo prende forma. Tutti gli elementi TRUST sono liberamente combinabili fra loro per organizzare gli interni, adattandosi allo stile di lavoro di chi li abita. Volumi e costruzioni sono aerei, leggeri e insieme materici.

CARATTERISTICHE TECNICHE

PARETI SCREEN

Struttura pannelli. In fibra di legno a media densità impiallacciato in rovere TW.

Finitura pannelli.

- Rovere naturale TW (70)
- Rovere medio TW (71)

TW (acronimo di Techno-wood). Indica il processo tecnologico necessario a trasformare una selezione di legni naturali in un tranciato che replica la venatura tipica del rovere. L'utilizzo di questo materiale garantisce uniformità della venatura e del colore.

Piedi. In acciaio verniciato color ardesia. Feltrini adesivi sagomati a protezione del pavimento.

MENSOLE E CABINET

Dimensioni.

- Small: idoneo al montaggio su configurazioni di 3 moduli
- Large: idoneo al montaggio su configurazioni di 4 moduli

MENSOLE

Struttura. Realizzate in fibra di legno a media densità. Sono composte da due ripiani e un montante centrale, il tutto rivestito in pelle o cuoio.

Rivestimento.

- Pelle Frau® SC
- Saddle Executive

Componenti metallici. Le parti metalliche a vista sono verniciare color ardesia.

Dettagli tecnici. Le mensole sono fissate in sospensione direttamente alle pareti verticali mediante supporti di fissaggio in metallo.

CABINET

Modelli.

- cabinet
- cabinet con sportello passacavi

TRUST is a design system collection and at the same time a system of values. The collection consists of desks, self-supporting screens and cabinets. Surfaces, outlines, architectures contribute to create a scene of calm and confident atmosphere and to configure a flexible and open space, where dialogue takes shape.

All the elements of TRUST collection can be freely combined to organise the interiors, adapting to the work habits their users. Volumes and structures are airy, light and at the same time tangible.

TECHNICAL FEATURES

SCREEN

Panel structure. In medium-density wood fibre veneered in oak TW.

Panel finish.

- Natural oak TW (70)
- Medium Oak TW (71)

TW (acronym for Techno-wood). Indicates the technological process required to transform a selection of natural woods into a veneer that replicates the typical grain of oak. The use of this material ensures uniform grain and colour.

Feet. In slate-coloured painted steel. Adhesive felt pads shaped to protect the floor.

SHELVES AND CABINET

Dimensions.

- Small: provided for configurations of 3 modules
- Large: provided for configurations of 4 modules

SHELVES

Structure. Made of medium-density wood fibre. Composed of two shelves and a central pillar, entirely upholstered in leather or saddle-leather.

Upholstery.

- Pelle Frau® SC
- Saddle Executive

Metal components. The visible metal parts are covered by a slate coloured lacquer.

Technical details. The shelves are suspended and fixed directly to vertical walls by means of metal fixing supports.

CABINET

Items.

- cabinet
- cabinet with cable management door

Struttura. Realizzato in fibra di legno a media densità. Il top è rivestito in pelle o cuoio. La superficie inferiore del top, i montanti e il fondo del cabinet sono verniciati di colore nero. Le ante frontali a ribalta sono impiallacciate in rovere TW con finitura in abbinamento alle pareti. Meccanismo di apertura e bilanciamento a fune.

Cabinet con sportello passacavi. In questo caso il top dispone di uno sportellino a ribalta, realizzato in legno tulipier, posto nella parte posteriore del pannello centrale. Lo sportello è rivestito in pelle o cuoio come il resto del piano.

Rivestimento top

- Pelle Frau® SC
- Saddle Executive

Finitura ante.

- Rovere naturale TW (70)
- Rovere medio TW (71)

Maniglia. In acciaio verniciato color nero.

Dettagli tecnici. Il cabinet viene agganciato e fissato in sospensione alle pareti verticali tramite una struttura metallica di colore nero che viene installata sul lato posteriore del cabinet.

Nel caso del cabinet con sportello passacavi, per permettere il passaggio dei cavi, la parete verticale posta dietro è sempre predisposta con un foro con borchia. In questo caso si rende obbligatorio l'acquisto di un accessorio aggiuntivo utile a celare la borchia e il passaggio del cavo dal cabinet fino a terra.

- Canalina passacavi
- Pannello passacavi con appendiabiti

Posizione foro passaggio cavi. Personalizzata in base alle richieste del cliente specificate in fase di acquisto. Per assicurare una corretta predisposizione del foro in fase produttiva si raccomanda l'invio di un disegno.

ACCESSORI E OPTIONAL

CANALINA PASSACAVI

Pannello verticale in acciaio verniciato in color ardesia. Viene fissato alla parete verticale, sul lato posteriore, in corrispondenza della borchia passacavi per permettere e nascondere il passaggio del cavo proveniente dal cabinet fino a terra.

PANNELLO PASSACAVI CON APPENDIABITI

Alla canalina passacavi descritta sopra viene aggiunto un pannello appendiabiti con ripiano poggia borse.

Telaio. In acciaio verniciato color ardesia con tubolare per appendere una o più grucce.

Pannello verticale di chiusura e ripiano. In fibra di legno a media densità con impiallaccatura in rovere TW in abbinamento alle pareti verticali.

GANCIO APPENDIABITI

Gancio mobile rivestito in pelle o cuoio.

- Pelle Frau® SC
- Saddle Executive

Nella stessa collezione.

Trust Cabinet
Trust Desk

Structure. Made of medium-density wood fibre. The top is upholstered in leather or saddle-leather. The lower surface of the top, the pillars and the bottom of the cabinet are lacquered black. The front flap doors are veneered in oak TW with a finish matching the walls. Cable opening and balance mechanism.

Cabinet with cable management door. In this case the top has a lift-up door made in tulip wood and located in the rear part of the central panel. The door is upholstered in leather or saddle-leather like the rest of the top.

Top upholstery

- Pelle Frau® SC
- Saddle Executive

Door finish.

- Natural oak TW (70)
- Medium oak TW (71)

Handle. In black-coloured painted steel.

Technical details. The cabinet is suspended, hooked and fixed to vertical walls by means of a black metallic structure installed on the rear side of the cabinet.

If the cabinet has a cable management door, in order to allow the passage of cables, the vertical wall located behind the cabinet always has a hole with a grommet. In this case an additional accessory needs to be bought, which serves to hide the grommet and the cables passage from the cabinet to the ground.

- Cable management raceway
- Cable management panel with clothes stand

Cable run hole position. Customised based on the customer's request specified during the purchase phase. To ensure the correct placement of the hole during production phase, it is advisable to send a drawing.

ACCESSORIES AND OPTIONALS

CABLE MANAGEMENT RACEWAY

Vertical panel in slate-coloured painted steel. Its back side is fixed to the vertical wall at the cable tidy to make it possible to hide the passage of cables from the cabinet to the ground.

CABLE MANAGEMENT PANEL WITH CLOTHES STAND

A clothes stand panel with a shelf for placing bags is added to the cable management raceway described above.

Frame. In slate-coloured painted steel with a tube for hanging one or more hangers.

Vertical closure panel and shelf. In medium-density wood fibre veneered in oak TW to match the vertical walls.

CLOTHES STAND HOOK

The mobile hook is covered in leather or saddle-leather.

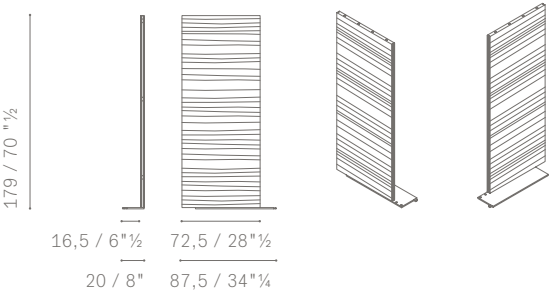

- Pelle Frau® SC
- Saddle Executive

In the same collection.
