

BONALDO

Geometric Table

Designer: **Alain Gilles**

Summing up significant stylistic and material research, Geometric Table is a transforming shape-shifting table that plays on perspective: with a hypnotic visual effect, it looks different depending on the point of view, for a living area with a surprising personality. The concept is based on chameleon-like silhouettes, starting with the base: its four legs with drop-shaped feet appear either thick or

sharp and thin, playing together to offer a different perception of their visual weight as you walk around the table, with an impressive scenic yet slender and graceful presence, given by its rounded shapes. The table is also available in a special clay hand finished spatula effect terracotta which gives the entire frame a sculptural look.
