LASKASAS®

About Laskasas

Welcome to Laskasas, a result of visionary craftsmanship and relentless dedication, where each and every furniture item is born from a legacy of passion and expertise.

Our journey begins with Celso Lascasas, a passionate craftsman whose adventure in this industry started at the tender age of 14. Driven by a deep-rooted commitment and ambition, Celso laid the foundations for what would have become the Laskasas brand. His pioneering spirit set the stage for the brand's success, a legacy now guided by the leadership of Diana Lascasas.

Each piece is made in Rebordosa, a small town on the outskirts of Porto, with the expertise and wisdom of our skilled craftsmen with decades of experience. Today, Laskasas stands tall as a testament to its heritage, with a global presence in 70 countries and over 400 skilled employees.

We are proud to offer designs that transcend trends, with the ability to personalise materials, finishes and sizes, ensuring each creation finds its perfect place within one's home.

At Laskasas, innovation meets tradition, and every line, cut and finish represents a commitment to quality and detail.

K LASKASAS
MADE IN PORTUGAL

Made in Portugal

In Portugal, furniture manufacturing has a long-standing and distinguished tradition.

Over the past decade, factories have invested in research and development, establishing Portugal as one of the most stable European furniture industries.

Today, the country is known for its impressive craftsmanship and expertise in high-end furniture, with “Made in Portugal” as a quality and reliability symbol.

Thanks to the efforts of emerging designers who use this craftsmanship to develop products that are changing how Portuguese design is perceived, inside and outside its borders, Portugal has started to establish its name in the design industry.

Although there are several factors behind the country’s success in the furniture industry, both internally and externally, the key driver has always been the *savoir-faire* gathered through decades of hard work. And it is this savoir-faire that has elevated Portuguese furniture to some of the best in the world.

By Portuguese People

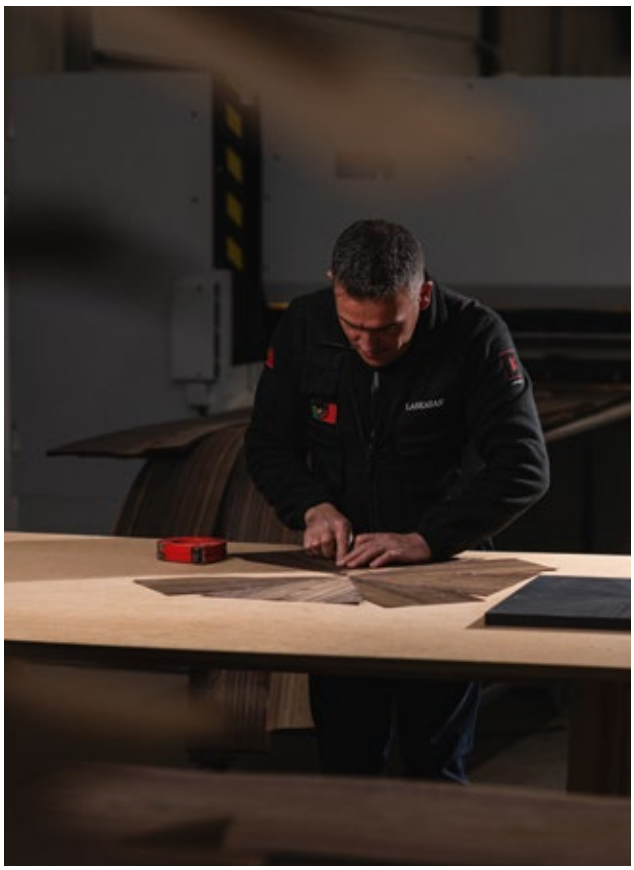

While we draw inspiration from diverse cultures and traditions, becoming a true beacon of inspiration means acknowledging and proudly embracing our core values. As we welcome the beauty of craftsmanship, our designers pour their hearts and souls into their work, ensuring that the artistry continues to thrive and inspire future generations.

Laskasas designers dedicate countless hours to perfecting their skills, honing their techniques, and mastering their craft. It is through their hands that our products come to life: from their meticulous work with metals, the careful shaping of wood veneers, the patient cutting of marbles, and the delicate work with glass materials.

For us, craftsmanship means authenticity, exclusivity, and individuality celebration. We aim to deliver exceptional high-end furniture and design purposeful connections for customers worldwide, preserving our heritage through our passion for design.

Portuguese Roots Behind our History

The inspirations behind this catalogue are a homage to some of the most emblematic Portuguese references and their hidden treasures: the rich history, traditions, monuments, art, cuisine, and Portuguese craftsmanship.

Portugal, a land of captivating beauty and unique identity, captures the hearts of millions worldwide: from prestigious landmarks to the soulful melodies of fado, the sweetness of Porto Wine and Pastel de Nata, a very famous Portuguese pastry, to the captivating tradition of Azulejos.

Standing at the forefront of Europe's thriving furniture industry, the Portuguese remarkable success is explained not only by the combination of traditional craftsmanship with modern design concepts but also by the careful production and exclusive customisation options.

At Laskasas, we aim to be known as a leading brand in the interior design industry by providing high-quality products and superior customer service. Every day, we work to deliver exceptional and fully customisable furniture to elevate interior aesthetics.

Soulful Strings: The Portuguese Guitar

The “Guitarra Portuguesa” (Portuguese guitar) is famous for its distinctive and evocative sound, holding a special place in the Portuguese people’s hearts. Its origins date back to the early 19th century, carrying a rich cultural heritage and national identity.

This instrument has found its true home in “Fado”, the classical Portuguese music genre, well-known for its mournful melodies that capture the essence of life’s biggest questions and challenges.

Pastel de Nata: A symbol of resilience

Anyone who's been lucky enough to visit Portugal knows that the simple thought of a pastel de nata is enough to bring back a lot of nostalgia. Each Portuguese region and baker will have a slightly different twist on the recipe, but the expectation is always a flaky pastry with a touch of custardy and sugary delight.

The original recipe dates back 300 years to the Jerónimos Monastery in Belém, where everything started. Back then, Portugal was going through a period of political and religious instability, which led to the closure of many monasteries and convents. To overcome their precarious situation, the monks relied on their culinary skills. The success of Pastel de Natal turned this dessert into a national treasure, a symbol of Portuguese cuisine and a testament to the Jerónimos Monastery monks' resilience.

Feast for the Senses

Inspired by the essence of woodlands, this dining room is wrapped in warm, muted browns and soft greens. These earthy tones create a soothing and inviting atmosphere, while the gentle play of natural light enhances the room's homely feel.

The Woodland Dining Room invites guests to immerse in a peaceful place where the essence of nature meets sophisticated design. In this space, the Jayne Chairs and the Jefferson Dining Table harmoniously complement each other, creating an effect of both style and elegance. The Austen Sideboard gracefully supports and elevates the functionality of this area, adding a touch of practicality to its beauty.

With beautiful tableware and tasteful floral arrangements, this setting is the backdrop for a truly memorable dining experience. It is an invitation to savour life's moments amidst the elegance, comfort and natural appeal of woodland-inspired design.

Port Wine: A Symbol Of Portuguese Winemaking Expertise

Port wine, one of Portugal's precious treasures from the historic Douro region, is a testament to the country's rich cultural heritage.

Famous for its sweetness, one of the most distinctive features of this drink is its meticulous ageing process. Traditionally fortified with grape spirit, it matures in oak barrels where it develops its rich and velvety character over the years. From vibrant ruby to deep tawny, each sip unfolds a symphony of flavours, enjoyed as an aperitif, paired with delicious desserts or savoured in moments of celebration.

Internationally recognised, Port Wine is a true ambassador of Portugal's winemaking expertise and an invitation to savour the country's unique identity and heritage.

An Invitation To Escape The Everyday Rush

Riverside Retreat is much more than a bedroom; it is an expression of serenity and escape. The name itself evokes a sense of calm and peace inspired by the picturesque landscapes of the Douro region.

The large windows frame a panoramic view of the Douro river, allowing natural light to flood the room and offering an unforgettable experience within this house.

The products on display are pillars of elegance and functionality within this retreat. Conveying an aura of sophistication and comfort, the Gray Bed invites guests to unwind and surrender to its softness. Placed alongside it, the Rowling Bedside Table and the Lee Side Table complement the arrangement, adding balance and utility to the space.

With soft shades of green evoking a sense of connection and natural materials like wood creating warmth and comfort, Riverside Retreat is the epitome of relaxation.

Sailing Through History

At the heart of Portuguese culture and history are two iconic symbols: traditional Portuguese tiles and the caravel. These symbols are powerful connections to the nation's past and contributions to the world's history.

This hallway captures the essence of our sea history, drawing inspiration from the legendary Portuguese caravels developed in the 15th century. These manoeuvrable sailing ships represent Portugal's pioneering spirit and adventurous heritage.

Bordallo Pinheiro: Much More Than Everyday Tableware

In 1884, Raphael Bordallo Pinheiro, an artist with an unconventional spirit, founded, with his brother, the “Fábrica de Faianças” in Caldas da Rainha in memory of their father, a ceramic craftsman.

Raphael’s dream was to enhance everyday tableware with designs deeply rooted in Portuguese culture: the culinary heritage and the natural environment. He wanted to see vegetables, flowers and animals on the table, so he started to create these pieces, which were an immediate success and an outstanding example of 19th-century Portuguese legacy.

Today, Bordallo Pinheiro continues its history, remaining faithful to its traditional techniques and original naturalistic designs while reinventing itself with modern techniques and new aesthetics.

Souto de Moura: A Master of Portuguese Architecture

Renowned for his visionary architectural skills, Eduardo Souto de Moura was born in 1952 in Porto. His journey began under the mentorship of Álvaro Siza Vieira, where he developed his craft and shaped his unique design philosophy.

As a recent graduate, Moura stunned the architectural world by winning the competition for the “Centro Cultural da Secretaria de Estado da Cultura in Porto” (Cultural Centre of the State Secretary for Culture in Porto), a pivotal moment in his career. This achievement was a milestone, launching him onto the world stage and establishing his name at the forefront of the new generation of architects all over Portugal and beyond.

Today, we celebrate his legacy - one that continues to inspire awe and admiration among enthusiasts of architectural innovation.
