Cabinets / Cabinets / London Collection - Act II/ 2025

The Richmond cabinet is a standout piece from [The London Collection – Act II](#) a celebration of Promemoria’s exceptional craftsmanship. Its sleek silhouette rests on leather-covered feet that lift the structure from the floor, evoking a sense of lightness. Integrated lighting subtly enhances its presence, while the cabinet’s striking inlay pattern –crafted from a carefully curated selection of precious wood essences—is inspired by the architectural lines of London’s Tower Bridge. Designed in collaboration with [David Collins Studio](#), Richmond is a perfect balance of artistry and function.
