Mirrors and screen / Joie de Vivre / 2025

Named after the collection presented in 2025, the Joie de Vivre screen features a distinctive inlay design—one of the highest expressions of Promemoria's masterful cabinet-making tradition.

Its vibrant colors and joyful forms bring the background to life and are available in a variety of fine wood finishes.

Originally conceived for a practical function, the Joie de Vivre screen becomes a decorative statement, able to blend into interiors like a piece of art and to adapt effortlessly to any space.
