PIETRO RUSSO

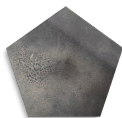

The Y25 bookcase, created by Pietro Russo for Baxter, draws from the legacy of Minimal Art and reinterprets it with a contemporary sensibility. Y25 asserts itself as an architectural element of rare incisiveness. The structure, made of top-quality steel, is the beating heart of the project. Available in the captivating glossy antique grisdorè finish, the bookcase captures the light, creating reflections that change with the perspective. It is a presence that does not merely contain volumes but elevates them, transforming the wall into a dynamic installation. Y25 is a design work that gives character to any space: its measured yet inherently powerful elegance makes it the perfect choice for contemporary homes seeking intellectual and sophisticated beauty. Perfect for a living area aspiring to uniqueness, Pietro Russo's Y25 bookcase is a tribute to geometric order that defies time and trends, defining the space with rigorous and absolute grace.
